

**Min-Fu Hsieh** received his Ph.D. in Engineering from the University of Liverpool, U.K., in 2000. He joined National Cheng Kung University in 2003, became Full Professor in 2012, and has been a Distinguished Professor since 2022. His research focuses on electric machine design, motor drives, and mechatronics. He is Editor of the IEEE Transactions on Magnetics, Associate Editor of the IEEE Transactions on Industry Applications, and an IEEE Magnetics Society Distinguished Lecturer (2025–2026). He has served key roles in major conferences, including INTERMAG Publications Co-Chair and Local Organizing Committee Chair of the 2025 IEEE IAS Annual Meeting. His honors include the Outstanding Research Award from Taiwan's National Science and Technology Council, and he is a Fellow of the IET.
